PROFILE

Good skill to quick learn and understand new things. Excellent understanding of the work of various equipment and devices. Hobbies in beta testing games. An avid gamer. Extensive experience of all types of games. And this gives me an advantage in a creative approach to solving problems. And finding solution as fast as it possible.

EMPLOYMENT HISTORY

		Last job experience
Oct 2019 - Jun 2020	Credit expert pawnshop branch	Lviv
	The valuables that people leave are called the "collateral". The person can get their valuable item back from the pawnbroker if they pay back the money they were loaned and pay interest on the loan. Interest is like a fee for getting to use someone else's money for a set time period. If the person who has borrowed money from the pawnbroker does not repay the loan and interest within an agreed-upon time limit, the pawnbroker can sell the valuable item to another customer to get back the money they loaned.	

EDUCATION

Sep 1998 - May 2008	High school №57	Lviv
	I loved subjects such as computer science, physics, biology, mathematics and always learning something new.	
Sep 2008 - May 2012	Infocommunications, College	Lviv
	College of Infocommunications. National Lviv Polytechnic University. Specialty "Service equipment of communication enterprises" diploma of Junior Specialist.	
Sep 2012 - May 2014	Bachelor's degree, Lviv Polytechnic National University	Lviv
	Six educational laboratories are currently operating at the Department which are equipped with the modern telecommunication and information devices and systems, therefore the research laboratories NDL-109 are successfully running in the Department structure and the local academy CISCO; the equipment for educational purposes was placed in the laboratory of "Ruling complexes of TC-systems" and the certification of the experts according to the program CISCO CCNA (network system administrators) is also organized.
